DETAILED ACTION

Response to Amendment

Applicant submitted an amendment dated November 15, 2007, wherein claims 1-17 are cancelled and claims 18-36 remain in the application for reconsideration. Applicant provided remarks for reconsideration.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 18 are rejected under 35 U.S.C. 102 (b) as being anticipated by Mizuno ET al (U.S Patent No.5, 193,635).

Regarding claim 18, Mizuno discloses a floor panel that separates an inside of a vehicle (fig 4, element 37), which is a vehicle passenger room, from an outside of the vehicle (fig 3, element 37), the vehicle passenger room is equipped with a cooling/heating system (fig 2, element 16), and a fuel cell that generates electricity through a reaction of fuel gas and oxidation gas (fig 4, element 24), wherein the fuel cell (fig 4, element 24) is disposed on the floor panel (fig 4, element 37) so as to be in the vehicle passenger room in a temperature conditioned environment.

Allowable Subject Matter

Claims 19-36 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments, see page 5, filed 11/15/2007, with respect to the rejection(s) of claim(s) 18-36 under 35.U.S.C.103 (a) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Mizuno et al (U.S Patent No.5, 193,635).
